

Webinar

WHO Guidance on the Development of Public Health Strategies in the Context of the Minamata Convention

June 2, 2021 @ 13:30-15:00 CET in English

Register [here](#) by May 31

The Minamata Convention on Mercury requires that a National Action Plan for artisanal and small-scale gold mining include a public health strategy on the exposure of miners and their communities to mercury.

To support national health authorities, WHO has prepared [guidance](#) on developing an evidence-based public health strategy for artisanal and small-scale gold mining.

Webinar presentations will include an overview of the approach in the guidance and insights and experiences from countries that pilot tested the approach.

This event is for Ministries of Health, Minamata Convention Focal Points, UN organizations, UNEP Global Mercury Partnership, and other interested stakeholders.

The agenda will be distributed to registered participants before the event.

For further information, please contact IPCMAIL@who.int.

Co-organized by the World Health Organization and the Minamata Convention Secretariat.

Hosted by the Swiss Tropical and Public Health Institute.
