

The Nexus Chemistry - Climate Change: Understanding Trends, Risks and Opportunities Webinar series

The webinar series is organized by the project “Climate Action Programme for the Chemical Industry” (CAPCI) that is carried out by the GIZ and funded by the Federal Ministry for the Environment (BMU) in the framework of its International Climate Initiative (IKI).

Content of the Webinar Series

Session 1 : Overview - The nexus chemistry and climate change: Role and importance of the chemical industry for tackling climate change
01.09.2021 (12:30 – 14:00 Berlin Time)

Session 2: Innovation in and from the chemical sector as a key driver for low-carbon solutions **06.10.2021 (12:30 – 14:00 Berlin Time)**

Session 3: Climate policies – Potential contributions of the chemical industry for ambitious climate policies and mitigation objectives **03.11.2021 (12:30 – 14:00 Berlin Time) tbc**

Session 4: Practical solutions for tackling climate change: Learning experiences and good practices from the chemical industry **01.12.2021 (12:30 – 14:00 Berlin Time) tbc**
